

Come and experience a new journey at

Change a market, Be agile, Explore new horizons and Join us!

We are all young passionate people working for the growth of UEX one of the main Insurtech start up in Singapore. Our goal is to disrupt the way people buy insurance to build **Health insurance as it should be: personalized coverages subscribed 100% online, easy and paperless.**

We are the only 100% online health insurance subscription [platform](#) in Singapore. Our mission is to leverage technology to make private & group health insurance simple, fast, efficient and personalized for our members.

Care is the new growth hacking! We provide a new digital experience to our members, with the right advice to protect their health and help them find the solution that matches best with their profile. Anyone can cover themselves and each member of their family according to their needs : no more, no less, in less than 3 minutes.

UEX is growing fast: Thanks to our financial investments we confirmed our potential to become a leader in both personalized individual health insurance and employee benefit program in Singapore. Our goal is to disrupt the way people buy insurance, and finally make it simple and understandable. And to achieve this, we are looking for brilliant and passionate individuals to join our global team.

You can check our [website](#) and our [platform](#) and even on our [Facebook Page](#) to catch more information about us ;)

Job Description

This internship is a really great opportunity to support a new venture in its development through different missions: in coordination with its dev and sales team manage online marketing campaigns (using Google AdWords, Facebook Ads, Google Analytics, Google Data Studio and more...), SEO, SEM, SEA, support commercial campaigns (referral marketing, incentive and reward programs etc.), handle website optimization, animate social networks (Facebook, LinkedIn, YouTube), organize different events with our customers/partners, and more!

- **Responsibilities are given from Day 1:** you will conduct projects from the beginning to the end - from the development of the strategy to the analysis of the results.
- You will make your mark by contributing to and participating in a variety of marketing projects and campaigns - your creativity is highly welcomed!!
- You will learn a lot about **entrepreneurial environment:** we truly believe in the fact of trying and adapt quickly according to the results.
- By partnering up with the content team you will help create awareness about healthcare in Singapore and all its specificities.
- You will be a **member of the Insurtech and Fintech community in Singapore**, a dynamic environment growing fast.
- You will always be stimulated by something you like to do, and never be bored, because there are many projects to handle.

Qualifications required

- **A fast learning** candidate who is looking for a challenge.
- Feeling super at ease with **English speaking**, even if it is not your mother tongue.
- Good knowledge of Excel tools. Knowledge of Google Adwords, Facebook Ads and Google Analytics is a real plus.
- A **graduate or undergraduate** from a top university, business or engineering school.
- Previous experience in marketing is a plus, but motivation is a must.
- You are eligible to work in Singapore or you meet the requirements of the Singaporean Working Holiday Pass.

Additional Information

- **Team:** Be ready to join a human, ambitious and hardworking team who wants to create an Insurance (r)evolution and loves to work together. Even if autonomy is highly important, we support and motivate each other: team spirit is one of our key values.
- **Environment:** Our offices are located in Singapore, in the middle of the CBD.
- **Salary expectations:** Based on your skills and previous experiences.

Feeling up to a challenge?
